STRIP PANEL

CCP-100

The extensive range and versatile design of ASTEEL Interior and Exterior Linear Ceilings offers numerous possibilities for creative design. A number of Aluminium-Zinc or Aluminium Coated Steel linear styles are available in a range of colours using the ENVIOSERIES coating system. The ability to curve and contour ASTEEL Linear Ceilings has made the range a favourite with architects and designers around the world.

LINEAR CEILING

Classic metal strip ceilings include tile ceilings, exterior soffit ceilings, acoustical ceilings, open cell, and many more. All feature up to 95% recycled content. Solutions for nearly any application, including hotel ceilings, commercial ceilings, and hospital ceilings. Leading technical/ design support, customization and CAD services.

DESIGN FLEXIBILITY

ASTEEL Linear Ceilings can be specified in both an open and closed style in many pre-finished colours. The Concealed Fastened System can accommodate even the most ingenious of ceiling designs. The range can be customised to fully integrate with the interior and exterior of building architecture.
